

## ACKNOWLEDGEMENTS

The *Guidelines for Site Selection and Tree Planting in Cambodia* were initiated by the Forestry Administration, in collaboration with the Cambodia Tree Seed Project, as part of the Tree Seed Policy Formulation Project, funded by the Danish Embassy in Phnom Penh.

Thanks are due to Mr. Chea Sam Ang, Deputy Director of the Forestry Administration and Project Chief, and Mr. Arvid Sloth, Project Advisor, for their guidance and ongoing encouragement throughout the development of the *Guidelines*.

The *Guidelines* reflect inputs from a number of individuals representing different levels of the Forestry Administration, the armed forces, donor funded projects, NGOs working with communities, the private sector, and a research institute. Our thanks go to all those who participated in their formulation, as without these valuable contributions, the *Guidelines* would not be complete. Special thanks go to Mr. Ignas Dimmer, Danida NRM Advisor for Seila, and Mr. Shambhu Prasad Dungal, Technical Advisor with Concern Worldwide, for continued assistance in the development of maps, and criteria and indicators.

The process of developing and documenting the *Guidelines* was led by Ms. Sarah Burgess, Consultant, and Mr. So Thea, National Project Manager.
